* **Striker Call**: strikers can be called at anytime. You will lose a Strike Bomb every time you call a striker. Once you're out of Strike Bombs, you can't call your striker anymore. You can hold from 3 to 5 Strike Bombs during a match.

* **Another Striker**: when you choose your Striker character, with the Another Striker system you could instead choose to make his Another Striker your own striker. In battle, when calling the striker you summon the Another Striker and not the character you designated as striker.

* **Maniac Striker**: some characters has a Maniac Striker. See code page for know how to select them.

* **Desperation Moves / Super Desperation Moves (DM/SDM)**: you need 1 Stock to execute a DM, or 3 stock to execute a SDM.

Counter Mode	Armor Mode
<ul style="list-style-type: none"> - your attacks do more damage - can use DM/SDM as often as you want (depending on red energy bar) - can use the Guard Cancel Emergency Evade and Blow Off as often as you want You need 3 Stocks for this.	<ul style="list-style-type: none"> - your attacks do more damage - no block damage from special moves, DM and SDM - when you get hit you don' t get the animation and recovery time that you would normally, but you still lose energy - you can use the Guard Cancel Emergency Evade and Blow Off as often as you want You need 3 Stocks for this.
* Note: both Counter and Armor Modes lasts for quite a while, but once it wears off, your Power Gauge doesn' t reactivate for a while, preventing you from charging stocks
