General Moves

A	Weak Punch	C	Weak Kick
B	Strong Punch	D	Strong Kick
←/→ B	Throws	→↘↓↙← D	Special Throws
jump ←/↓/→ B	Mid Air Throws	when thrown → B	Throw Reversals
knock opponent on the floor ↑ A / B / C / D	Pursuit Attack	←←/→→	Back / Forward Dash
after being knocked down ←/→	Wake-up Escapes	when hit by a power move A / B	defensive attack
after being knocked down ↑	Wake-up Attacks	when hit by a power move C / D	counter attack

* **Overheads**: these moves hit opponents who block low, press any combination of **PUNCH**+**KICK** to initiate these (Overheads are indicated with !O)

* **Power Moves**: these moves knock your opponent right across the screen and are normally initiated with a →/→→**B**/**D** or throw or at the end of a multi-hitting move (Power Moves are indicated with !P)

* **Waku 'POW' Bar**: you are able to store up to seven Waku 'POW' bars. You can fill the meter either performing moves (blocked or not by opponent) or blocking opponent's moves. The meter does not rise if you use a move that uses 1 Waku 'POW' bar (except for DokiDoki)

* **Waku ES Specials**: do the motion for a special move but with 2 punches or 2 kicks (**A**+**B** or **C**+**D**) to get a more powerful version of that special move, this uses up 1 Waku 'POW' bar

* **DokiDoki Attacks**: each character has at least one of these attacks, usually it is some multi-hit high damage move, some also can be comboed. Needs 1 Waku 'POW' bar

* **HaraHara Attack**: it is an unblockable attack, it does take a fair while to start, but does tremendous damage. "HARAHARA ATTACK MOTION START" flashes on the screen once ↓↓**A**+**B** or ↓↓**C**+**D** motion has been performed. Needs 1 Waku 'POW' bar

* **Waku Super Power**: by pressing **A**+**B**+**C**+**D** you activate your Waku Super Power, interrupting any move your opponent is throwing at you. When flashing yellow your normal hits do more damage and all normal blocked hits do damage as well. Needs 1 Waku 'POW' bar
